

ABSTRACT OF THE DISCLOSURE**5 DELAYED STORAGE OF COOKIES WITH APPROVAL CAPABILITY**

10 A method, apparatus, and computer instructions for
managing cookies in a data processing system. A cookie
is received during a browser program session. The cookie
is only stored in a temporary data store within the data
processing system for a duration of the browser program
session. The cookies stored in the temporary data store
may be displayed in response to a signal to terminate the
15 browser program session. Cookies are selectively stored
in a persistent storage, based on user input.
